## POULTRY WATERING EQUIPMENT

### **5 LITRE GRAVITY DRINKER**

**Part #:** GI207001

Ideal water drinker for day old chicks & older birds  
Go away for the weekend with peace of mind  
300 mm high X 230 mm base diameter

### **DRINKER BASE**

**Part #:** PMW0005

Base only.  
Suitable for 20 chicks  
Made from galvanised steel

### **JUMBO "B" BELL DRINKER**

**Part #:** GI2050510

Most popular commercial and free range drinker in NZ.  
Connect to low pressure water line and have fresh water available 24 hours a day.

Operates either suspended or sitting on the ground.  
Good flow rate to meet bird demands.

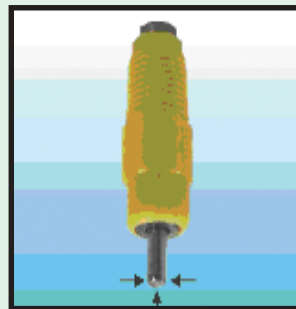

400 mm diameter base

Complete with 3 m of connection hose and drinker saddle  
100 - 150 adult birds per drinker depending on climate

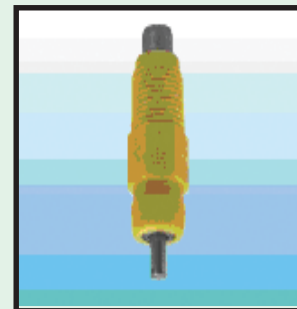

### **NIPPLE WATER LINES**

Ideal for floor or cage birds  
Complete range of accessories also available

### **HIGH FLOW NIPPLE**

Ideal for rearing & pullets

### **REDUCED FLOW NIPPLE**

Ideal for Adults

## NEST BOXES

### **2 HOLE ROLLAWAY NEST BOX**

**Part #:** SKA00100-01

Simple attach to a wall inside a shed or outside for layers. When the hen lays an egg and then stands up the egg rolls out of the nest box into the collection cover in front of the box. Black nest box chute sits inside nest box. The black chute is removable for cleaning.

4 - 5 birds per hole (i.e max 10 birds/box)

Eggs roll out into this compartment - which has a cover to keep eggs clean and stops pecking of eggs

### **10 HOLE ROLLAWAY NEST BOX**

**Part #:** PC0003

Simple attach to a wall inside a shed or outside for layers.

When the hen lays an egg and then stands up the egg rolls out of the nest box into the collection cover in front of the box.

Black nest box chute sits inside nest box and is easily removed for cleaning.

A galvanised protective cover always protects the eggs that roll out of the nest box - simply lift the cover to collect eggs

4 - 5 birds per hole (i.e max 50 birds/box)

### **REVERSE ROLL OUT CHUTE**

The nest box can also be made so that the eggs roll out to the back of the nest box

### **CLEAN EGGS & QUICK COLLECTION**

Save time and money by not having to clean eggs.

Presentation of quality eggs to your customer

## POULTRY PROCESSING & ACCESSORIES

### **SMALL SCALE PLUCKER**

**Part #:** COR2646010

220 volt, 50hZ, 0.5 HP, 24 fingers

Capacity is 80 birds per hour

Ideal for small operators

### **PLUCKER FINGERS**

**Part #:** PK0001-03

### **TRANSPORTATION CRATE**

#### **2 DOOR MINI PIEDMONT**

**Part #:** GI0102002

Extremely robust and hard wearing

Ideal for moving birds between farms or for processing

### **LEG BANDS**

**Part #:** KU001-07

The only quick and simple way to identify birds of different ages

### **DRINKER BOWL - DOGS**

**Part #:** COR6060

Dog drinker that is ideal to keep fresh water available for your pets or working animals.

Manufactured from robust plastic, simple ball cock system for on/off.

Different water levels can be set depending on the depth of water required in the bowl.
